Noon – 1 p.m.

GERIATRICS

December 4, 2019

“The Elderly Trauma Patient”

Brian M. Tibbs, M.D., FACS

*Attending Surgeon, Southwest General Surgical Associates
Texas Health Presbyterian Hospital-Dallas – Dallas, Texas*

Objectives:

- Review the epidemiology and mechanism of injury of the elderly trauma patient.
- Define and understand the unique challenges in caring for the elderly trauma patient.
 - Discuss the team approach of caring for the elderly trauma patient.

December 11, 2019

“Climate Change: Thermoregulatory and Cardiovascular Consequences in Older Adults”

Craig Crandall, Ph.D.

*Professor of Internal Medicine, UT Southwestern Medical Center
Director, Thermal and Vascular Physiology Laboratory, Institute for Exercise and Environmental Medicine, Texas Health Presbyterian Hospital Dallas
Dallas, Texas*

Objectives:

- Review human thermoregulation.
- Discuss how aging affects human thermoregulation, culminating in a greater risk for heat injuries.
- Discuss approaches to mitigate heat strain in the elderly, focusing on low energy demand cooling strategies.

December 18, 2019

“Normal Aging or a Pathological Condition: Aging & Memory Changes: What’s Normal and What is Not”

Mary E. Quiceno, M.D., FAAN

*Adjunct Associate Professor of Neurology at University of North Texas Health Science Center – Fort Worth, Texas
Medical Director, PAREXEL International – Billerica, Massachusetts*

Objectives:

- Describe changes in cognitive function that are expected with aging and those which are unexpected.
- Distinguish between benign memory slips and ominous signs and symptoms of cognitive impairment.
 - Review common causes of cognitive changes in older adults.
 - Identify when to evaluate, when to provide reassurance and what to recommend for prevention of memory loss in older adults.
- Formulate an interdisciplinary plan for care planning for older people with cognitive impairment.

December 25, 2019
